About the Support at Home program

From 1 November, 2025, the Australian Government's Support at Home program replaces the Home Care Packages Program and Short-Term Restorative Care Programme. Care and support for older Australians is split into three areas under the new program:

- **Everyday Living services** - includes domestic assistance, home maintenance and repairs, meals
- **Independence services** - includes personal care, social support and community engagement, therapeutic services for independent living, respite, transport, assistive technology and home modifications
- **Clinical Support services** - includes nursing care, allied health and nutrition.

Support at Home program funding

Support at Home services are fully or partly funded by the Government for people over 65 (or over 50 if you are of Aboriginal and/or Torres Strait Islander origin, or are at risk of, or experiencing, homelessness) who meet the government's [eligibility criteria](#).

You may be required by the Government to make a contribution to the cost of care by paying an income-tested fee. For example, full pensioners are required to contribute:

- **17.5% for Everyday Living services**
- **5% for Independence services**
- **0% for Clinical Care services**

Further information about contributions is available on the [My Aged Care website](#), or contact Vitalis Aged Care at Home via the details below.

Support at Home has eight classifications. Each classification has a Government-set budget for you to pay for services. The indicative budget amounts are:

Classification	Quarterly budget	Annual amount
1	\$2752.50	\$11,010.01
2	\$4112.84	\$16,451.35
3	\$5634.20	\$22,536.81
4	\$7617.13	\$30,468.51
5	\$10,182.38	\$40,729.53
6	\$12,341.32	\$49,365.27
7	\$14,915.00	\$59,660.00
8	\$20,034.28	\$80,137.12

Under the Support at Home program, 10% of your budget is deducted from your allocated amount and held by Services Australia for Vitalis to use for care management activities. These are charged at \$130 per hour and include care planning, service planning and management, monitoring review and evaluation, and support and education.
